*And so Snow White and Prince Charming lived happily ever after. Well not quite.... You see, one day, when Snow and the Prince had annoyed the wicked stepmother Queen Lillian, she put a spell on them and everyone else in the castle at the time, that they would sleep for a thousand years .. Silly woman..! She was in the castle herself, so now a thousand years later, they all find themselves and their little family trying to cope with living in this very modern world!*

*Great entertainment for the whole family!*
